

Feel the **WARMTH** of **FRESHNESS** in every **DROP!**

COLLECTION 2020-21

WATER HEATERS

A PERFECT COMBINATION OF INNOVATION & PERFORMANCE

Nothing is more rejuvenating and refreshing than taking a hot shower and experiencing the warmth of freshness in every drop. McCoy Water heaters are manufactured in world class manufacturing plants with German Technology which is synonymous with quality and performance with an unmatched warranty and value for money

its elegant design and innovative world class technology not only save energy but delivers hot water quickly, thus making it a perfect combination of innovation and excellence. Ergonomically designed and packed with all safety features, McCoy water heaters are an epitome of revolution in this category

McCoy Complete spectrum of water heaters ranging from Immersion rod, Instant, Storage and Glass Lined Water heater are the most perfect choice of customers across India

CALOR GLASS LINE

Equipped with state-of-the-art materials and a range of safety functions, the 5 star water heater comes with high accuracy thermostat control and safety valve. Built with high gloss rust proof ABS plastic body, it provides hot water instantly, thus saving your electricity bills.

Electronic Temperature Display

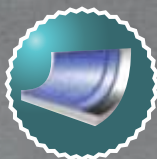

BEE STAR RATING:

A 5-star rated product. It has high-density & thick PUF that ensures energy efficiency and reduced electricity bills.

KEY FEATURES:

Glass Line Technology :

Glassline Technology makes the inner tank non corrosive and increases the tank life.

Multi-Functional safety valve :

The safety valve is designed to automatically relieve pressure and discharge water in case the pressure overshoots the preset limits. The MFSV consists of Non Return Valve, Pressure Reducing Valve, Vacuum Relief Valve and Drain.

Indicator Light:

The indicator lights show the heating and cut-off status.

Adjustable thermostat control:

The temperature control knob allows you to set the temperature precisely between 25 C to 75 C.

High Working Pressure:

Its high pressure withstanding capacity makes it suitable for high-rise buildings and high pressure pump applications.

Magnesium anode :

The magnesium anode protects the water heater from rusting and corrosion through the method of electrolysis, thus enhancing its lifespan.

Fire Retardant Cable:

Specially designed to resistant combustion and limit the propagation of flames.

High Efficient PUF Insulation:

Highly efficient PUF comes with uniform and high density foam distribution. This insulation avoids heat loss.

BERO GLASS LINE

Manufactured by using state-of-the-art Vitreous Enamel Technology from Europe, Glass Line Range Storage Water Heater is a 4 star rated product ensuring energy efficiency and low electricity bills. The glass lined tank is free from rust and corrosion with a long lifespan. Equipped with adjustable thermostat and multi-function safety valve, it offers the perfect water heating

5 YEAR
WARRANTY*
ON INNER TANK

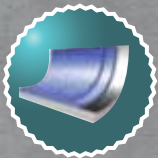

2 YEAR
WARRANTY*
ON PRODUCT

BEE STAR RATING:

A 4-star rated product. It has high-density & thick PUF that ensures energy efficiency and reduced electricity bills.

KEY FEATURES:

Vitreous Enamel Technology:

Vitreous Enameling is a glass like coating manufactured by the advanced technology from Europe. It not only makes the enamel layer robust from rust and corrosion but also increases the lifespan irrespective of water quality.

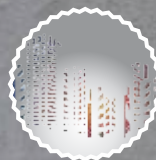

Multi Function Safety Valve :

The safety valve is designed to automatically relieve pressure and discharge water in case the pressure overshoots the preset limits. The MFSV consists of Non Return Valve, Pressure Reducing Valve, Vacuum Relief Valve and Drain.

High Efficient PUF:

Highly efficient PUF comes with uniform and high density foam distribution. This insulation avoids heat loss.

High Working Pressure:

Its high pressure withstanding capacity makes it suitable for high-rise buildings and high pressure pump applications.

Adjustable Thermostat:

The temperature control knob allows you to set the temperature precisely between 25°C to 75°C.

Magnesium Anode:

The magnesium anode protects the water heater from rusting and corrosion through the method of electrolysis, thus enhancing its lifespan.

Temperature Indicator:

An indicator that indicates change in temperature of the water.

Body Material:

Has high gloss & tough plastic body that provides utmost durability.

McCoy Storage Water Heaters Technical Specification

Range/ Capacity	Mounting	Wattage (In KW)	Heating Time (In mins)	Rated Pressure (In Bar)	Product Dimensions (In mm)		
					W	D	L
6L	Vertical	2	8	8	330	350	390
10L	Vertical	2	12	8	330	350	455
15L	Vertical	2	20	8	330	350	315
25L	Vertical	2	30	8	370	400	565

*Specification are subject to change without prior notice.

CELSIUS STAINLESS STEEL

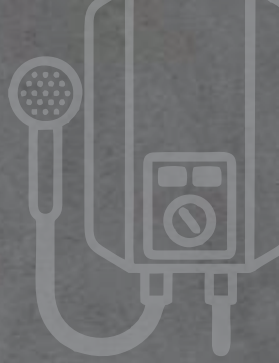

Made of high-quality stainless steel, the water heater comes with a 4 star rating. It's pressure relief safety valve automatically relieves pressure and discharge water in case the pressure overshoots the preset limits.

BEE STAR RATING:

A 4-star rated product. It has high-density & thick glasswool that ensures energy efficiency and reduced

KEY FEATURES:

Stainless Steel Inner Container:

High quality corrosion free
Stainless Steel Inner tank

Safety Valve:

The safety valve is designed to automatically relieve pressure and discharge water in case the pressure overshoots the preset limits.

Fire Retardant Cable:

Specially designed to resistant combustion and limit the propagation of flames.

Heating Element:

ISI marked 99.9% Pure copper heating element ensures efficient heating of water.

High Working Pressure :

0.60 Mpa Ideal for high rise buildings

Glasswool Insulation :

High efficient glasswool insulation

Body Material :

Durable and non-corrosive body

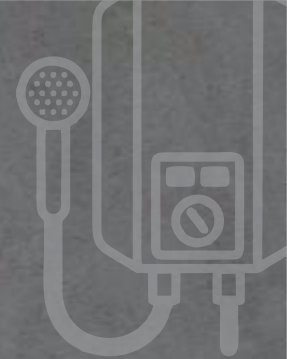

Thermal Cutout :

Stem type thermal cutout

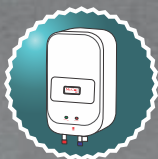

CALOR INSTANT

Equipped with state-of-the-art materials and a range of safety functions, the water heater comes with high accuracy thermostat and safety valve. Built with high gloss rust proof ABS plastic body, it provides hot water instantly, thus saving your electricity bills.

KEY FEATURES:

Body Material:

High gloss rust proof ABS plastic body IP25 standard.

Safety Valve :

The safety valve is designed to automatically relieve pressure and discharge water in case the pressure overshoots the preset limits.

Thermostat:

High accuracy thermostat with preset thermal cutout for extra safety.

Stainless Steel Inner Container:

High quality corrosion free stainless steel inner tank.

High Working Pressure:

Its high pressure withstanding capacity makes it suitable for high-rise buildings and high pressure pump applications.

Indicator Light:

The indicator lights show the heating and cut-off status.

Fire Retardant Cable:

Specially designed to resist combustion and limit the propagation of flames.

Heating Element:

ISI marked 99.9% Pure copper heating element maximize water heating efficiency.

STELLA GAS WATER HEATER

The Gas water heater offers you the most economical water heating solutions. It comes with solenoid valve for best in class safety with oxygen depletion sensor* and flame failure device. Its advanced heat exchanger technology maximizes heat efficiency, thus making it the perfect water heater.

Stella 610

Stella 608

*Available in selected models.

KEY FEATURES:

Suitable for low & high pressure

Flame Failure Device

Summer/Winter Switch

Water Volume Regulator

Automatic Ignition

20-Minutes in Built Timer

Temperature Protection Device

Child Safety Lock

Gas Volume Regulator

IMMERSION ROD

Made of 99.9% pure copper tube which is corrosion free and highly-efficient heating element. Product comes with heat proof plastic handle, 1.75 mtr. long cable and 18th months warranty which ensures the safety, enhances the durability, easy to use and highly portable.

KEY FEATURES:

ISI Marked:
For Best In-class-safety.

1.75 Mtr. Long Cord:
Useful when electric socket is far away.

Superior Copper Element :
99.9% Pure Electrolytic Copper Heat exchanger to maximize heat efficiency water heater.

Long Life:
Product has longer working life.

Corrosion Resistant:
Made of corrosion resistant material.

3 Pin Moulded Plug:
Ensure electric safety.
